

Blue & White Farmyard Animals

Blue & White Flower in Vase Mural

Blue and White Tiles

Using 17th century Dutch Delft techniques I can also produce tiles in blue and white. Any design can be effectively interpreted in blue and white to create traditionally colored tiles decorated in a lively contemporary style.

Handpainted Ceramic Tiles

Flower Tiles

Boat Border

Welcome to my hand painted ceramic tile brochure.

I have been producing hand painted tiles using traditional majolica glazing techniques since 1990 after graduating from St. Martins College of Art. I love ceramics and I love to paint in my own lively and illustrative style. Decorating tiles is the perfect way to combine both passions. Since 1997 I have been working from my studio in the village of Bethlehem in rural West Wales. I have produced ceramics for Liberty and Conran Shop in London and my tiles decorate many kitchens, bathrooms and swimming pools all over the world from Australia to Hollywood. I work on a personal basis with each customer to create uniquely tailored bespoke tiles to suit every individual's requirement. You can choose a design from my brochure and I will adapt it to fit into your space or alternatively commission me to produce a unique, one-off design to suit your own design ideas and color scheme. Anything is possible –

I love a challenge! **Kate Glanville** ♥

One off commissions are my specialty.

King Cat Mural

Over the years I have been asked to design many different tile murals on very many different themes. These have included customer's houses, hobbies, pets, children and favorite views. I am also happy to copy fabrics and to develop glaze colors to suit specific color schemes. Simply tell me your size requirements and ideas and I will produce a simple design sketch and a tile sample free of charge.
